PressureGuard® Bariatric APM

Segmented top reduces sharp pressure drop-offs, while air system below handles the “heavy lifting,” alternating weight-bearing across the surface in user-selectable intervals. “Two up, one down” inflation pattern ensures maximum patient support throughout the cycle.

Powerful Digital Control Unit
- Up to four times the air output of conventional units.
- Eight electronically-controlled comfort settings.
- Programmable cycle times of 20, 25, 30 or 35 minutes.
- Low pressure indicator and audible alarm.

Therapy Provided
- Powered Pressure Redistribution
- Alternating Pressure for users up to 750 lbs.

QUICK FACTS
Indications:
- Aggressive treatment (through Stage 4)
- Prevention of pressure injuries in immobile or high risk patients
- Can’t or won’t reposition frequently
- Can be positioned off the pressure injury

Key Advantages:
- Simple operation
- Gentle and effective pressure changes
- Customizable firmness and time settings
- PressureGuard design: stability, safety, anti-shearing
