

# Rexx and Fast Rexx

A favorite Q-Series design available in two distinct models

**Q-Series**  
Quality. Detail. Value.

- The Rexx which rises from 7-7/8" low to 26" high
- The fast-rising Fast Rexx which rises from 7-7/8" to 28" high in 20 seconds

The Fast Rexx meets OSHA speed recommendation of 20 seconds; can be expected to reduce staff injuries related to stooping and lifting, increase staff productivity and reduce staff turnover rates.

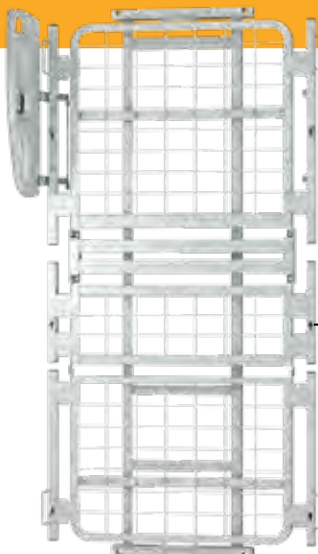

Standard Pendant Controller with Optional Foot-end Control
