Multi-component construction maximizes absorption and dispersion of pressure from bony prominences

The Equalizer®

The multi-component construction of the Equalizer contoured positioning cushion features an ultra-comfortable viscoelastic “memory foam” top, a contoured foundation layer for proper positioning of the legs, and an extra-soft relief zone for high-risk bony prominences.

Three zones of a proprietary, gel-like soft polymer provide added pressure dispersion under the thighs, greater trochanters, and ischial/tailbone region. Moisture-resistant cover has a rugged nylon bottom with a 2-way stretch fabric top and convenient front carry handle. Built-in sleeve in bottom of cover allows use of molded Sling-Fill™ base (not included- see page 46) for added stability in fabric sling seats; 2-year warranty. Average weight: 4 pounds. Height: 3.5”. Weight limit 250 lbs. (500 lbs. on Bariatric sizes.)

Medicare Code: Skin Protection and Positioning – E2607.
For sizes 22” or wider, use E2608.

EZ-Dish®

A comfortable viscoelastic “memory foam” top molds to the anatomically shaped, round-edged pocket below in the high density bottom. Pocket reduces pressure on ischials and coccyx. Bottom layer is contoured to encourage healthy, upright posture and proper positioning of the legs. Cover consists of anti-slip top surface and non-skid bottom. Built-in sleeve in bottom of cover allows use of molded Sling-Fill base (not included-see page 46); 18-month warranty.

Height: 3”.

Weight limit 250 lbs.

Medicare Code: Skin Protection – E2603.
