

Skin Care

Category: Antifungals, Moisturizers and Zinc Oxide Barriers

SELAN+[®]

Takes the Mess Out of Zinc Oxide.

Selan+ is a greaseless product that absorbs quickly into the skin without leaving behind the sticky, white and hard-to-remove residue normally associated with zinc oxide products. Use Selan+ products for added protection from incontinence, wound exudates, perspiration and other body fluids. Unlike petrolatum-based products, they will not impede absorption of urine into diapers and disposable briefs.

SELAN+[®] Ingredients: purified water USP, cetyl alcohol, sorbitol USP, dimethicone, glycerol monostearate, sodium lauryl sulfate, lanolin USP, methylparaben, fragrance, quaternium-15, SELAN+[®] Zinc Oxide also contains zinc oxide.

SELAN+[®] AF Antifungal Moisture Barrier Cream

There is no longer a need for separate moisture barrier and antifungal products.

Now You Can Have the Proven Advantages of SELAN+ with Added Antifungal Protection.

The 2% miconazole nitrate is an effective treatment against most athlete's foot, ringworm, jock itch and superficial yeast infections. Plus the dimethicone and zinc oxide ingredients provide a barrier to protect skin from incontinence and other harsh environmental conditions.

QUICK FACTS

Selan+ AF Antifungal Cream

Primary Use:

- Treats and cures most superficial yeast infections, athletes foot, ringworm and jock itch.

Key Advantages:

- Soothing relief
- Protects against moisture
- Absorbs quickly
