PressureGuard Easy Air®
Microclimate Management with Alternating Pressure

**Science.**
Proprietary design delivers powerful, proven impact on excess moisture and maceration.

**Safety.**
Minimizes risk associated with transfers, edge-of-bed/entrapment issues, and power loss.

**Simplicity.**
Ease of operation and cleaning make it equally user-friendly in facility or at home.

Industry-best microclimate management performance.
PressureGuard Easy Air®

Packed with the design innovations that have made Span a recognized pioneer in high-performance microclimate management and pressure management systems:

**Outer Coverlet**
- Highly vapor-permeable
- Superior air flow
- Wipes clean in place with standard hospital-grade cleaners
- Zippered, machine-launderable (air dry)

**Inner Air Delivery Cover**
- Dedicated air supply
- Directs constant stream of air
- Sweeps away moisture vapor before it can re-form as liquid
- Reduces maceration

**Proprietary Air Diffusion Matrix™**
- Three-dimensional liner helps ensure uninterrupted air flow in both cover and coverlet.

**PressureGuard Design:** Integrated air system/engineered foam shell with "Safety Edge" bolster system delivers superior edge-of-bed safety, stability and comfort.

**Treatment Flexibility:** Select one of two therapy modes:

- **Alternating Pressure**
  - Gently changes loading across the surface (15-minute cycle).

- **“Float” mode**
  - Provides active, powered flotation therapy.

**Patient indications:**
- Patients with excessive skin moisture due to sweating, decreased mobility, inability or refusal to be repositioned.
- Patients with macerated skin due to any of the above.
- Patients with increased skin or body temperature due to infection, sepsis, or other conditions.
- Patients with a combined score ≤ 5 on Braden Moisture, Activity and Mobility scales.
- Treatment of Stage 1-4 Pressure Injuries.
- Prevention of Pressure injuries for high-risk patients.
- Some patients with stabilized flaps/grafts (see Span algorithm for parameters).

**Conforms to:**
- 16 CFR Parts 1632 and 1633.

**Item #** **Description**
- L7535-29 Easy Air System 75” x 35” x 7”H
- L7835-29 Easy Air System 78” x 35” x 7”H
- L8035-29 Easy Air System 80” x 35” x 7”H
- L8435-29 Easy Air System 84” x 35” x 7”H
- L8039-29 Easy Air System 80” x 39” x 7”H
- 6470029 Easy Air System 80” x 42” x 7”H
- 81300 Easy Air System 80” x 42” x 7”H
- 8010 Easy Air Control Unit

**Weight Limit:**
- 500 lbs all models. 39” and 42” widths accommodate wider, non-bariatric beds for users up to 500 lbs. Bariatric (Easy Air XL) models also available for users up to 1000 lbs.

**Flammability:**
- Conforms to NFPA 101 (Life Safety Code); Cal. TB 117; ASTM E1590; and 16 CFR Parts 1632 and 1633.

**Complete System Includes Mattress, Control Unit, and Coverlet.**

| Weight Limit: 22 lbs. Two-year warranty (all components). |
| Control Unit Dimensions: 12” x 9.5” x 7” | Weight: 6 lbs. Leakage Current: ≤250micro-amps Voltage: 120 AC | Max Current: 1.0 Amp | Frequency: 60 Hertz |
